

Finding the bits and pieces of Preston History

Preston is a wonderful community with a rich history. Sadly, much of that history has been obscured by time and circumstance. The goal of the Preston Historical Committee is to help erase this obscurity and make that history more accessible to the community.

A good way to honor that history is to re-instate the historic road signs that the founders and early residents of Preston chose so long ago. It is a small but important way to keep their contribution to this town alive. To lose Preston's identity is to lose its soul - when that happens we become just another suburb of the east side.

We are now raising money for this road sign project and through the generosity of many Preston residents have raised half the funds needed to be able to see the project to completion. Please accept my sincere, warm thanks. But as I stated, only half has been collected; we still need \$500 more before we can give the go-ahead to the county for the sign installation. For a community of our size with the individuals donating how they are most comfortable, this is an easily reached goal.

If you would like to donate please send a check made out to the Preston Community Club to:

PCC Treasurer
PO Box 865
Preston, WA 98050

(Please make sure to note that the money is for the sign project)

Thanks!
Shannon
